Acknowledgements

None.

Funding

The authors declare that no funding, grants, or other financial support was received for this research.

Author contributions

Thai Le Quang: Conceptualization, Methodology, Software, Formal analysis, Investigation, Data curation, Writing – original draft, Visualization.
Vinh Truong Hoang: Conceptualization, Supervision, Resources, Writing – review & editing, Project administration.
Both authors read and approved the final manuscript.

Disclosure relevant to Data Availability

For transparency to the editor and reviewers (this note is intentionally omitted from the blinded manuscript to preserve double-blind review; it should be disclosed to the editor via the cover letter, and reinstated in the Data Availability statement after acceptance): corresponding author Vinh Truong Hoang is the creator of the EarVN1.0 dataset (Hoang, 2019) used as the primary dataset in this study. EarVN1.0 was independently published and publicly available prior to this study, and its use here follows the same access terms available to any researcher.
